# NINJA TENNIS

Ninja Tennis is a program for 10 and under with a system of advancing grip colors to gauge progress and encourage kids to achieve higher skills in order to advance to the next level. Each color grip represents a skill set as the student's tennis progresses. Students will be tested at the end of each session to achieve their new grip color with a graduation ceremony to step up. The program is created to inspire kids to move to the next level and keep kids together with a group of the same level working on similar skills. There are 4 different levels for kids to test into and earn a new color grip. At the end of the 4th level, kids graduate into the more advanced program.
